CAKE

For these sessions you obviously need a cake , I work closely with a local lady who owns Ava Rose Cakes, we work together to creat a bespoke cake to fit in nicley with the theme of the session.

The deposit for your session covers the cake so we can book it in advance, as Im sure you can imagine how busy cake making keeps you.

Of course you can always bring your own cake, take a look at the session package info and decide what is best for you .

because life is better with cake

BATH SECTION 'LETS CLEAN UP'

"A professional's unique, artistic vision can make the difference between a cute picture and a breathtaking heirloom."

Chances are, your baby loves a bath! this is a perfect way to finish up your session, whilst getting baby clean and really makes some beautiful images.

Of course you dont have to have this included, again take a look at the package information to help you decide what would work best for you.

This brochure only holds a snippet of my work, please feel free to head on over to Facebook,check out the website or follow me on Instagram and
Pinterest to see much more.

WHAT TO EXPECT

IT'S BEST TO BOOK YOUR SESSION AT LEAST 6 WEEKS PRIOR TO ALLOW TIME FOR PROP MAKING AND CAKE ORDERS

If you decide to book with myself, there is alot of work put in to your sesison. I create a portfolio and share it with you on pinterest so you can get an idea of what I am creating just for your session.

I put alot of time and effort into creating everything from scratch myself, I find this helps my vision turn out just the way I want it.

Babies very rarley smash a cake , it takes work from all of us to help them achieve the shots, this is why I advise coming in scruffs!

Also bring anything baby is attached too, a blanket, snuggle toy, dummy, juice, favourite snaks, this is all on hand incase we need to sooth baby for a while .

.

HOW LONG WILL IT TAKE

Well there is no exact timing to these sessions, although it never takes longer than an hour so book around an hour and a half of you day to spend here, this allows baby time to settle in, have fun and clean up.

DO I NEED TO BRING ANYTHING

Whatever you want :-) however it all depends on which package you go for!
There are sessions tomeet all budgest, and depedning on what you decide is for you, allows me to get as creative as you desire.

However, if there is anything at all that is sentimental to you and youjusthave to have included! Feel free to bring it along

because

everything they

do is worth

remembering

custom mermaid

PORTRAIT

I always start with a portrait beofre your cake smash fun begins, this helps baby settle in and also allows me to capture them before the mayhem!

Depenidn on which package you pick, this part of the sesison can be designed to match your theme, and included special keepsakes such as 'look at me now boards'

make it special

CUSTOM OUTFITS

of course you can provide your own outfit, remember, this session is about you!

But if you do require something I custom make all my designs to match your theme and session, this is included in somne of the packages so make sure you take a look at what you need before booking, as I require time to perfect this for you.

KEEPSAKES

Again, there are lots of additional extras that make your session special, unique and something that you can cherish for ever to pass on.

Custom usb packages are one of these ways, depeneding on what package you getthis is included or can be purchased extra.

A beautiful wooden personalised print box, with 8gb personalised usb and beautiful hidden extras!

DON'T FORGET

WHEN WILL I RECEIVE MY PORTRAITS?

YOUR FINAL PRINT ORDER WILL BE DELIVERED APPROXIMATELY 2-3 WEEKS AFTER YOU HAVE CHOSEN YOUR IMAGES

After your session is when the magic happens, and I edit the best of the images. These will then be sent across to you via email/social networking (whatever is easier) for you to view and pick your favourites (depending on which package you have) .

Your final print order will be delivered approximately 2-3 weeks after your previewing session. Please allow a little leway with things such as albums and custom usbs, as these take time to design and make.
